KabiCare Support Program for IDACIO[®] Patients

We understand how complicated, costly, and overwhelming immunology treatment can be for your patients. The KabiCare Program provides a potential solution for eligible patients to receive financial support for IDACIO[®].

Patients with commercial or private insurance may be eligible* for the copay program, which may lower their out-of-pocket costs to as little as **\$0/month** for treatment with an annual maximum.

Eligible patients enrolled in the KabiCare patient support program will be enrolled in copay. Providers and specialty pharmacies may also enroll patients in copay only.

Claim can be submitted within 180 days of the date listed on the Explanation of Benefits (EOB) from the patient's insurance.

Accessing the KabiCare copay program

The copay program can be accessed via the copay portal on the KabiCare website or by enrolling in the full patient support program.
